FIRE IN NORTH DANVILLE.

Four Residences Destroyed-Danville to Hold a Primary July 31st. DANVILLE, VA., July 20 .- Special .-A disastrous fire occurred in the residence portion of North Danville this afternoon, beginning about 5 o'clock and destroying four residences. The buildings were occupied by Captain D. A. Tyree, T. D. Seabury, J. H. Patrick and W. T. Reeling. North Danville being without a fire department and water works, and a high wind prevailing at the time, all the buildings in reach were at the mercy

The fire started in the residence of Captain D. A. Tyree, upon which car-penters were at work, and so rapid was the progress of the flames that Mrs.

Tyree and the children and the carpenters
had a narrow escape. Captain Tyree lost
all of his furniture and clothing. The Presbyterian church caught several times, but was saved by the hook and ladder brigade of the Danville fire de-partment. T. D. Seabury, J. H. Pat-rick and W. T. Keeling saved their fur-niture. The house occurred by the latter niture. The houses occupied by the latter were owned by B. F. Jefferson. The were owned by B. F. Jefferson. The total loss is between \$12,000 and \$15,000.

Total insurance \$7,000.

REDUCED TO POVERTY.

One of the Early Land Barons of California Goes to the Poorhouse.

A San Francisco special says: Another Spanish-Californian, who owned a principality when Fremont came here, has been sent to the poorhouse. He is Joaquin Cabrillo, the son of the widow Cabrillo, who came to Samoa county fifty-five years ago at the invitation of General Vallejo. Among her sons Julio and Joaquin were both prominent. They each obtained large grants of land from Governor Michel Torena, whose name has been an offense to California settlers because of his clouding titles by lavish gifts of land to his favorites. Julio gave the site for a court-house in Santa Rosa, but before he died his for-tune dwindled until his only income was his salary as janitor of the court-

His widow received \$25 per month as matron of the fall until the supervisors reduced her allowance to \$15. Joaquin received in 1884 a grant of three square leagues of the finest land in Sonoma county, but, like his brother and Vallejo, bad management, too lavish hospitality bad management, too lavish hospitality and easy ways brought Joaquin to the point where he had to ask the county for help. Year by year his fertile acres slipped from him. In one night, it is said, he lost a fine 300-acre farm at a game of poker. He did not know the value of money until all his wealth had disappeared. He is seventy-four years old and the county has allowed him \$10. old, and the county has allowed him \$19 a month for nesessaries.- New York

For all forms of disordered stomach use Bromo-Seltzer. A palatable, prompt cure.

FINANCE AND COMMERCE

THE CLOSING QUOTATIONS OF MONEY.

Offerings and Sales at the Richmond Tobacco Exchange-Internal Revenue Collections\_Foreign Advices.

NEW YORK, July 20 .- The stock market, under the influence of a sharp rise in quotations in London and liberal in quotations in London and liberal buying orders from that centre, opened strong and improved to the extent of 14@3½ per cent. The rise was checked by a sudden break of 3½ per cent. in General Electric to 51½, but it was no-General Electric to \$150. But it was noticeable that the market was comparatively free from those sudden relapses which have occurred day after day for some time past. Even when General Electric broke another 5 points to \$4654 under a heavy pressure, and all sorts of the content of the cont rumors were in circulation concerning the financial condition of the company, the reaction in the general list was by no means large. Sugar declined 2 points from the highest and other leading Stocks 1/2 to 1/4 per cent. The attack upon Genesal Electric was the overshadowing feature of the day's transactions. It was currently reported that a decision in a case of great importance had been rendered against the company; that the concern was in financial straits, and a receivership imminent. Officials of the company emphatically denied the rumors affecting the credit of the concern, and shortly before the close it became known through dispatches from Mil-waukee that Judge Seaman, in the United States District Court, had granted an in-junction against the Oconto Manufacjunction against the Oconto Manuac-turing Company, thus upholding the val-idity of the Edison patents in the incan-descent lamp. On this General Electric recovered to 4846048%, and the general market rallied from the lowest. Final quotations, in a majority of instances were above those of yesterday, general gains varying from 14 to 214 per cent. London was credited with purchasing over 25,000 shares, and it was reported that a leading bear operator had covered an extensive line of shorts. The ease in money on call, the moderate importations of gold, and the increasing exports of grain, exercised a favorable influence on the market. The buying of fractional lots of stocks for investment continues, and the transfer offices of eading railroad corporations are kept busy in breaking up full lots into certicates for odd lots. Among specialties Pullman lumped 3% to 156 and American Tobacco 4 to 59, but the latter afterwards broke to 53%. Manhattan rose 3% to 110% and left off at 113%. The transac-tions aggregated 247,000 shares, including 25,000 unlisted. The market closed firm

Money on call has been easy, ranging from 2 to 6 per cent., last loan at 2 per cent., and closing offered at 2 per cent. prime mercantile paper, 8@12 per cent. Sterling exchange weak; posted rates, 4824@4844; commercial bills, 480@483. Government bonds steady. State bonds

CHICAGO, ILL., July 20 .- Wheat was convalescent to-day.

valescent to-day. The up-turn was to comparatively steady cables, confirmation of good export transactions, higher quotations for stocks, less selling pressure, unfavorable crop reports, covering of shorts and a brisk investment demand.

The corn market was moderately firm, but tractive well after the estimate

but inactive, until after the estimate for to-morrow's receipts had been given out at 630 cars, when it weakened. The reports from the country were for the most part of the most favorable kind concerning the progress of the crop. The market became heavier as the session advanced, and final quotations were the

lowest of the day.
Oats were weaker, in sympathy with corn, although the Price Current said that crop prospects had been impaired by rust in the West.

The provision market was active and strong in the article of lard and dull but firm for the other articles on the
